COMMERCIAL OFFER

Dear Partners,

Tyumen Plywood Plant Ltd. is the biggest plywood manufacturer in West Siberia region producing different types of 100% birch plywood:

1. **Exterior Plywood WBP (GOST 3916.1-96):**
 - 2440*1220 mm;
 - 2500*1250 mm;
 - 1525*1525 mm.
2. **Interior Plywood Urea (GOST 3916. 1-96)**
 - 1525*1525 mm.
3. **Film Faced Plywood with LOGO of the company:**
 - 2500*1250 mm;
 - 2440*1220 mm.

The total capacity of the mill is 6000m³ of plywood monthly. Our company has years of experience in international trade and dispatches regularly 70% of total capacity over the world. Modern machinery from world leaders in woodworking - Raute, Angelo Cremona, Kitagawa allow us to produce high quality product. All possible certificates from Institute in Germany (CE, E1, CARB, BFU 100) and FSC for raw materials as well as cooperation with biggest logistic carriers, contribute trusted service and prosperous cooperation worldwide.
